Introduction

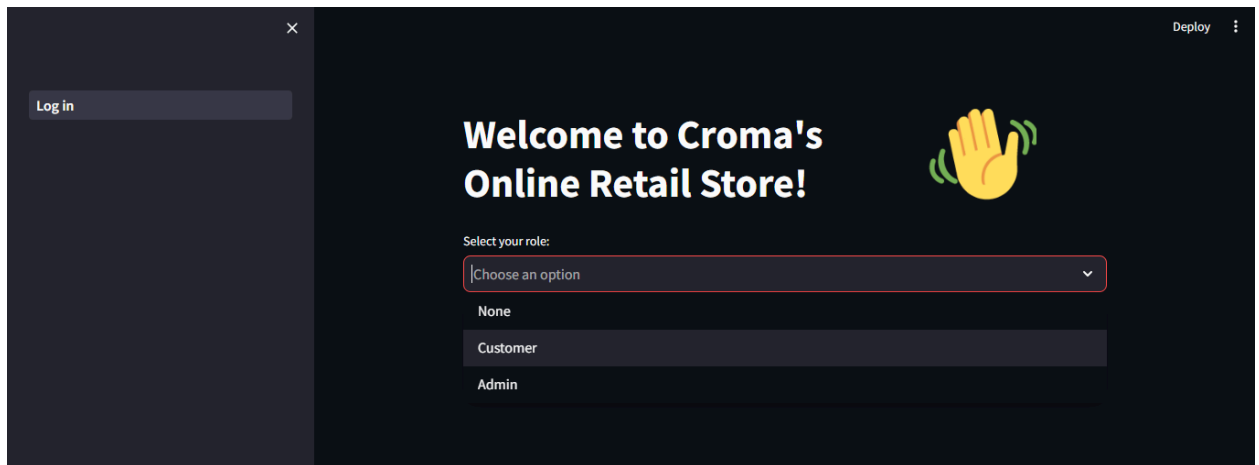

Our project aims to build a database management system for Croma's online retail store. Croma is a popular retail store for electronics and other related consumer goods. Our database application will focus solely on its online platform and exclude its offline stores from further discussions. This project's scope encompasses the management of the products, user profiles, procurement of electronic goods from suppliers, and inventory. This project will also aid in the administration of the distribution of the items, which includes the orders placed by the users and by Croma for stock replenishment. Focusing solely on the online platform makes the database system implementation precise and easily manageable. Separating back-end functions into distinct entities, like inventory, distribution, and procurement, ensures a modular design, enhancing scalability.

Features Implemented

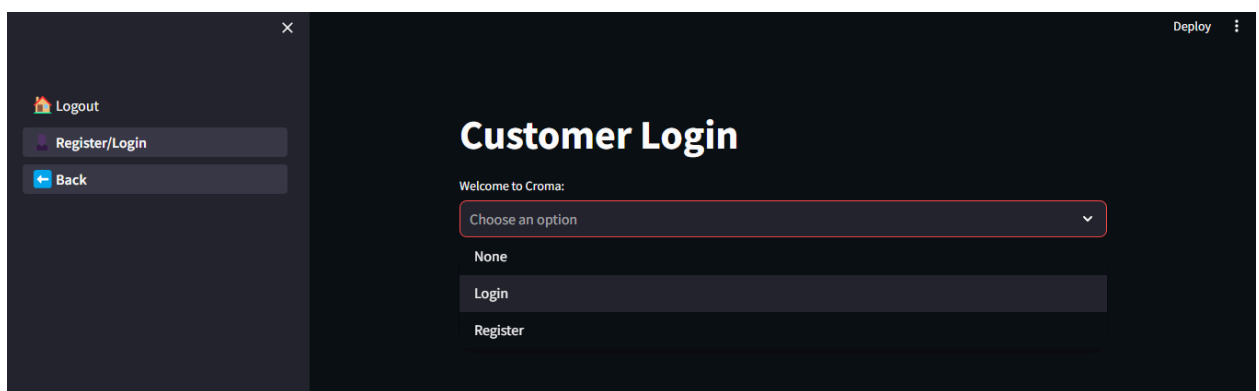

1) Login Page:

On the login page, users can choose to "Login" or "Register" as a Customer or "Login" as an Admin.

If the user wishes to "Login" or "Register" as a Customer, he/ she has to select the "Customer" option from the given choices as shown below.

Then, he/she will be redirected to the below screen where the customer needs to select one of the available options: “Login” or “Register”.

If the customer chooses the “Register” option he/ she will be redirected to the below screen to fill in his/her details and create an account.

☒ Home

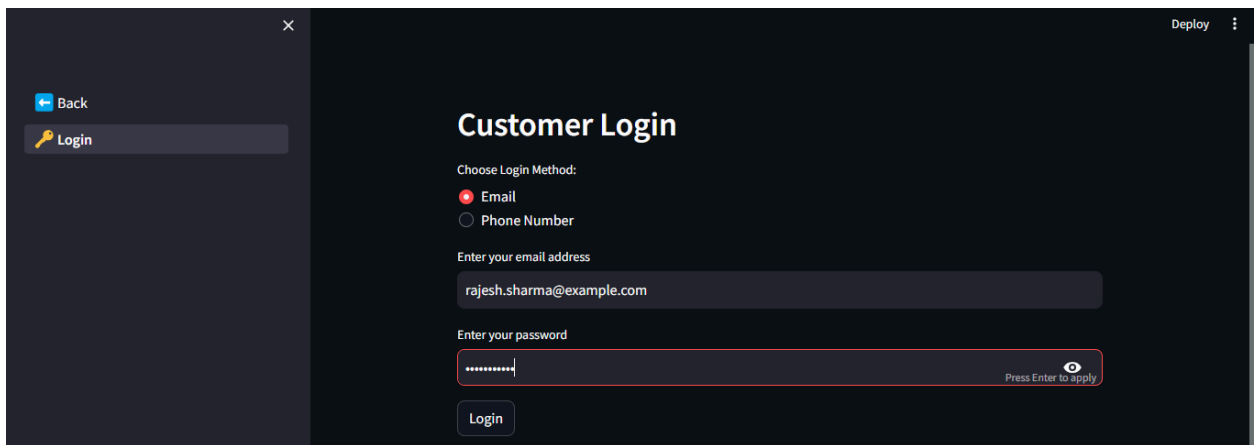

☐ Work

☐ Other

House No

For the purpose of this explanation, we'll be logging into an existing account. This is done by selecting the "Login" option from the previous screen and entering the details of the existing account as shown below:

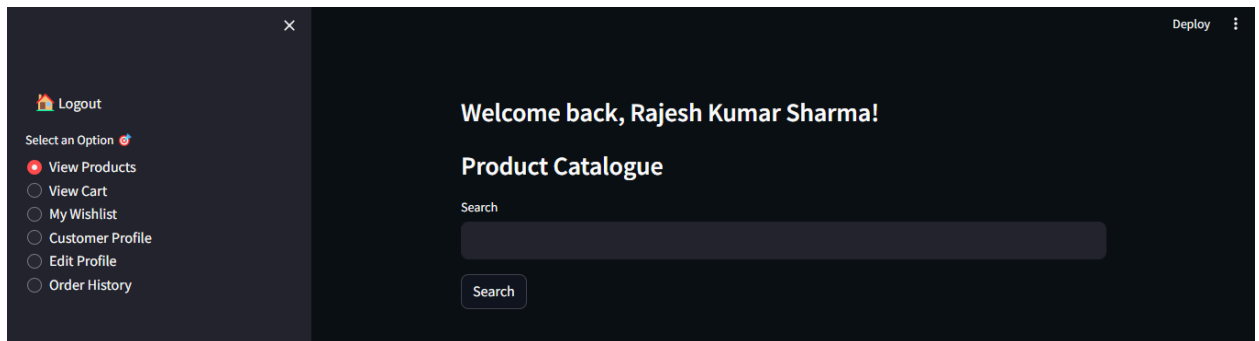

(Note: The customer will have the choice to select between "Phone Number" and "Email-ID" as options to login.)

Finally, for logging into the website as an Admin, on the first screen, the user should choose the "Admin" option on the first screen.

2) Customer Home Page:

After logging into the Customer Side, the customer will be greeted with the following screen:

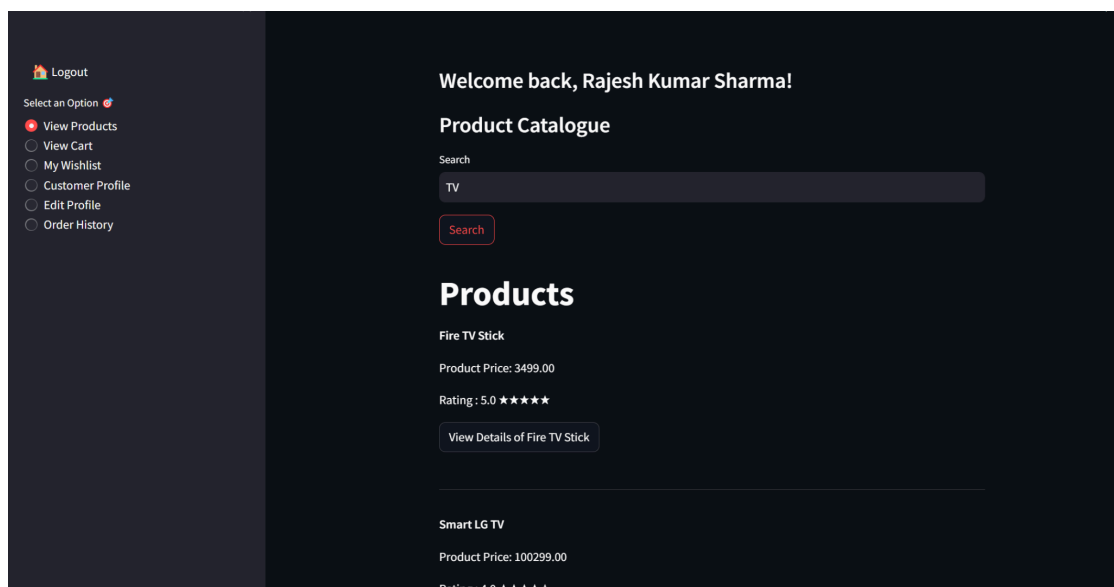

The features include “View Products”, “View Cart”, “My Wishlist”, “Customer Profile”, “Edit Profile”, and “Order History”, along with the “Logout” option to return to the “Login Page”.

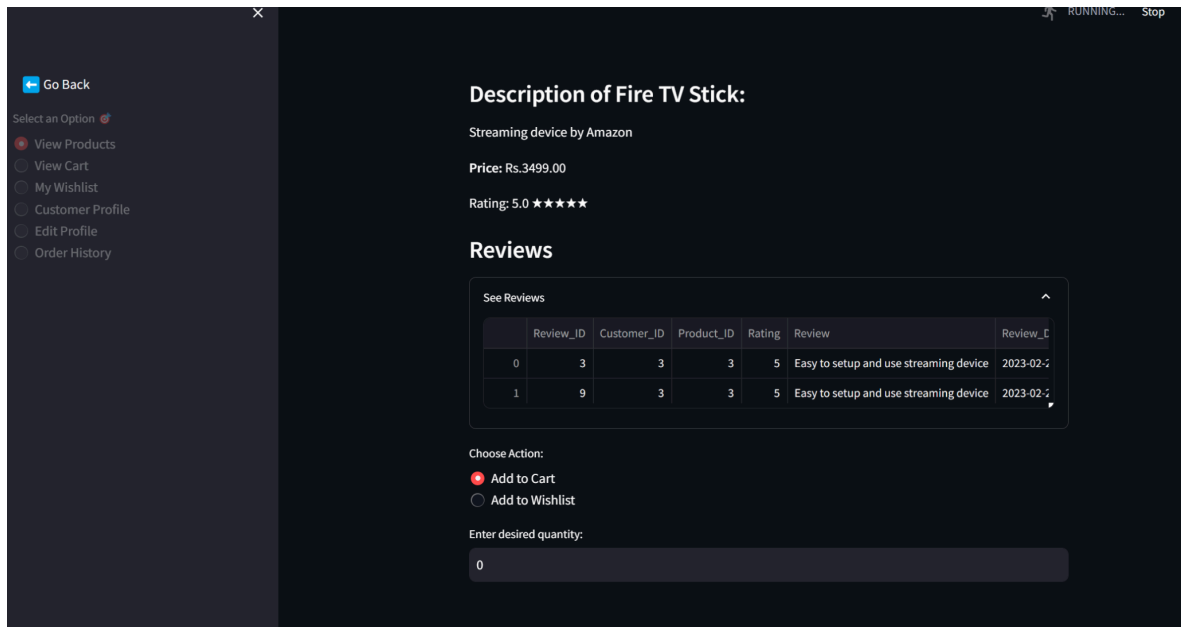

(Note: The features accessible to the customer are all visible on the navigation bar on the left side of the screen.)

i) View Products:

In this section, the customer is given the option to search for all products containing the keyword he/she searched for in the search bar. The relevant results are then displayed:

When the customer clicks on the “View Details” button, then the customer will be given an option to view the details of the selected product on the left navigation pane. As an example, the product details page of one of the products is shown below:

The “Product_Details” Page will allow the user to view the details of the selected product like description, price, rating, reviews about the product, product name and other details.

From the “Product_Details” page, the user will be able to add the product he/ she is viewing to his cart or to his wishlist.

ii) View Cart:

In this section, the customer can view and edit the quantities of items saved in his cart. He can also press the “Place Order” button to move to the checkout page to place his order. After the order gets placed, the products in the customer’s cart will be truncated. The customer will only be able to move to the “Proceed to Checkout” Page if the quantity of each product in his cart can be satisfied by the total quantity of products available in the inventory.

iii) My Wishlist:

In this section, the customer will be able to view the products he/ she has added to his wishlist to be purchased later along with the date when he/ she added the items to his/ her wishlist.

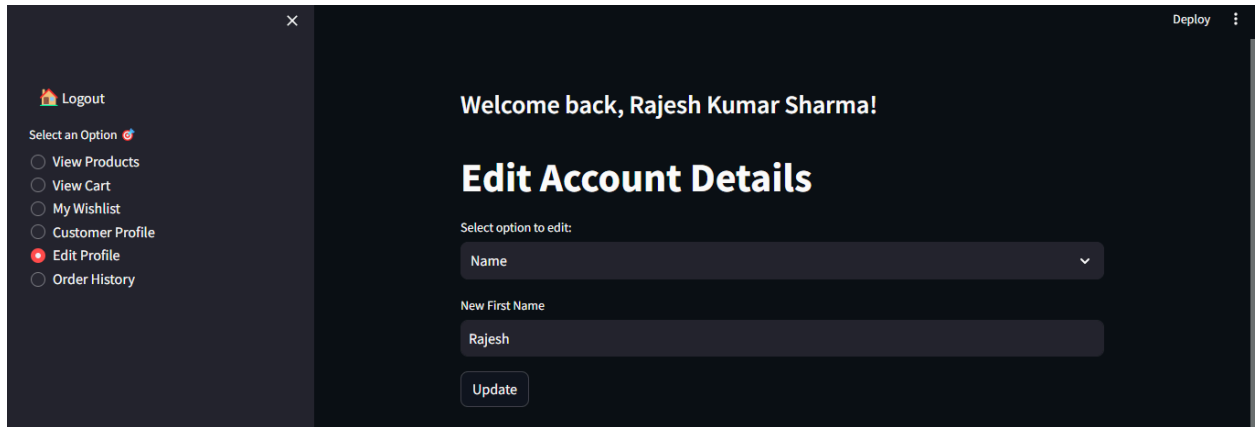

iv) Customer Profile:

In this section, the customer will be able to view the details of his account like Name, Contact No., Email, and Addresses.

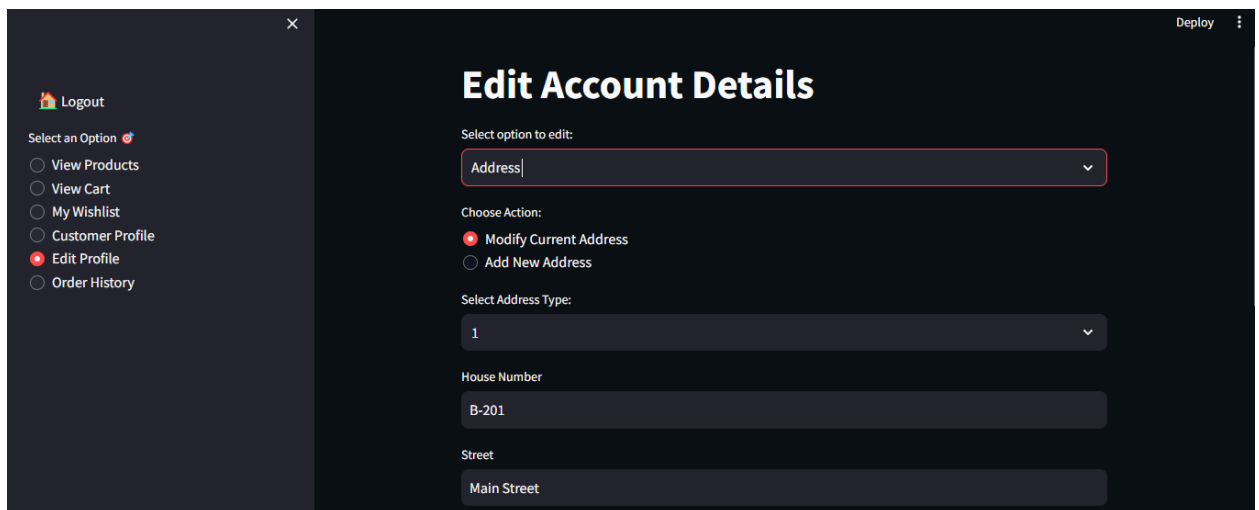

v) Edit Profile:

In this section, the customer can edit his profile details like Name, Contact No, Email, and Address. The customer can choose which field to edit by choosing the appropriate option from the dropdown menu.

This screenshot shows the 'Edit Account Details' form with the 'Name' field selected. The left sidebar contains a 'Logout' button and a 'Select an Option' dropdown menu with options: View Products, View Cart, My Wishlist, Customer Profile, Edit Profile (selected), and Order History. The main content area displays a welcome message for 'Rajesh Kumar Sharma' and the title 'Edit Account Details'. Below the title, there is a 'Select option to edit:' dropdown menu with 'Name' selected. A text input field for 'New First Name' contains the value 'Rajesh'. An 'Update' button is located at the bottom of the form.

This screenshot shows the 'Edit Account Details' form with the 'Address' field selected. The left sidebar is identical to the previous screenshot. The main content area displays the title 'Edit Account Details'. Below the title, there is a 'Select option to edit:' dropdown menu with 'Address' selected. Under the heading 'Choose Action:', there are two radio button options: 'Modify Current Address' (selected) and 'Add New Address'. Below this, there is a 'Select Address Type:' dropdown menu with '1' selected. There are two text input fields: 'House Number' containing 'B-201' and 'Street' containing 'Main Street'.

3) Admin Home Page:

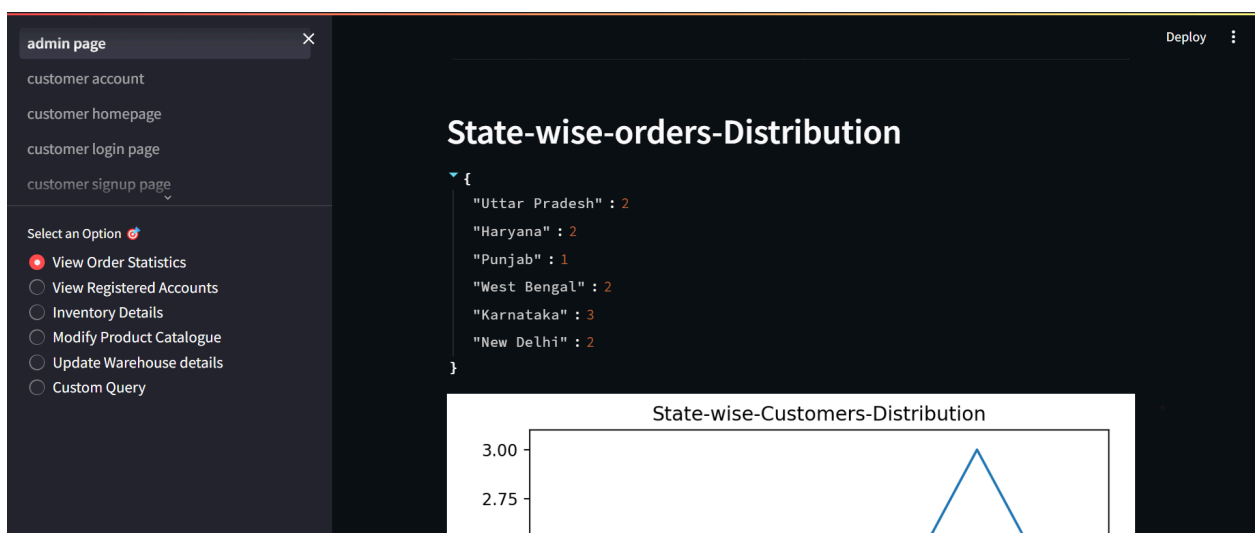

After logging into the Admin Side, the customer will be greeted with the following screen:

The features include “View Order Statistics”, “View Registered Accounts”, “Inventory Details”, “Modify Product Catalogue”, “Update Warehouse Details”, “Submit Custom Query” and “Place Shipment Order”, along with the “Logout” option to return to the “Login Page”.

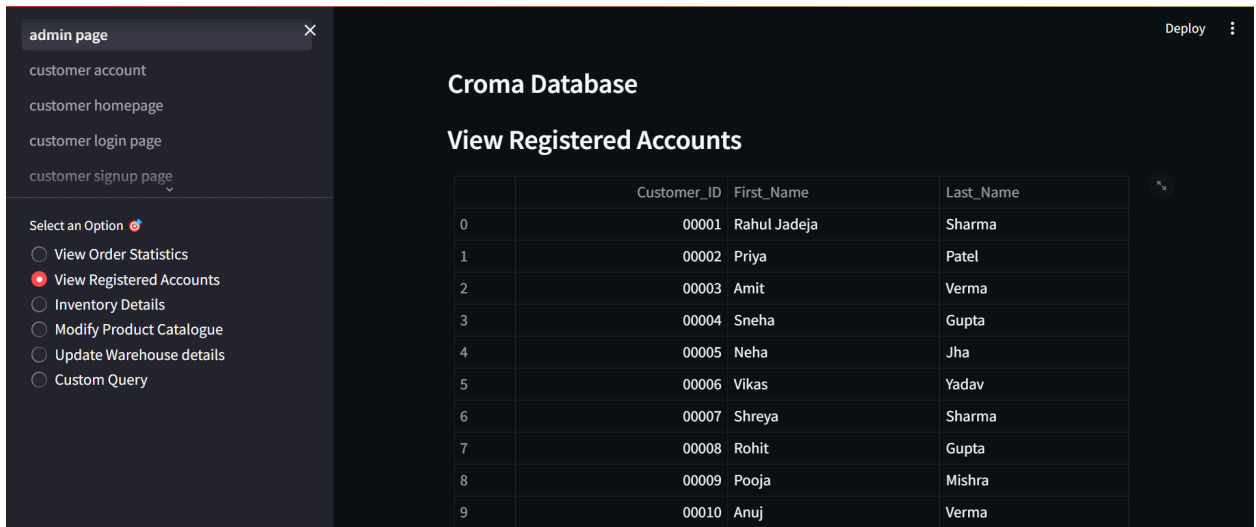

(Note: The features accessible to the admin are all visible on the navigation bar on the left side of the screen.)

i) View order statistics:

This feature presents statistics related to orders, such as Order ID, Customer ID, and Order Placement Date. Additionally, it displays the distribution of customers by state in the form of a line graph.

ii) View Registered Accounts:

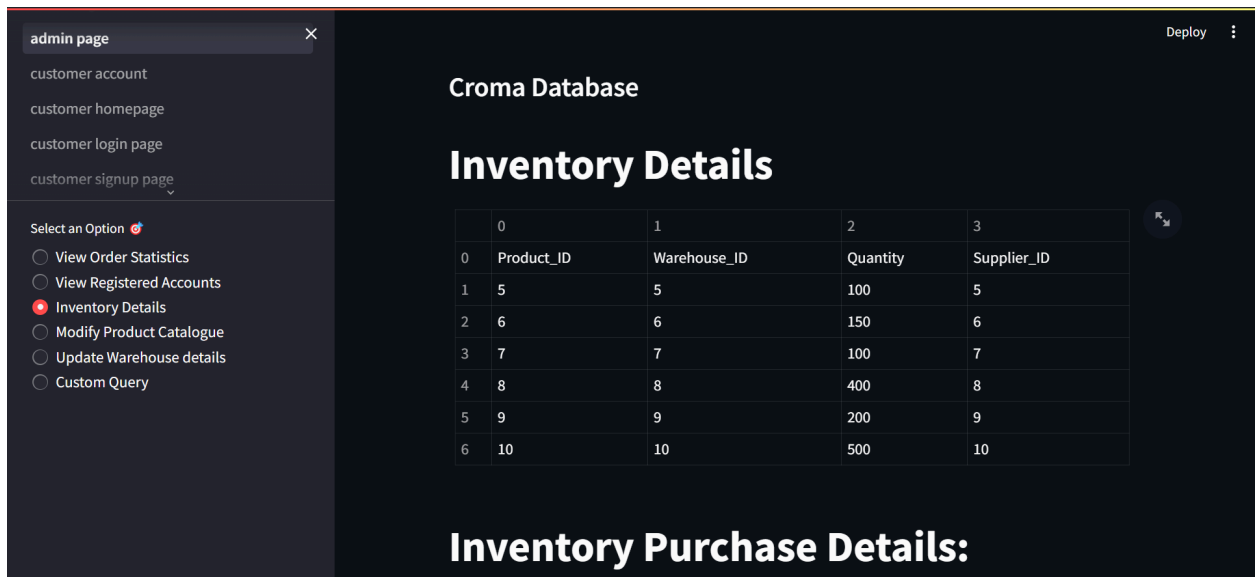

The screenshot displays the 'Croma Database' interface. On the left is a sidebar with a search bar containing 'admin page' and a list of navigation items: 'customer account', 'customer homepage', 'customer login page', 'customer signup page', and a 'Select an Option' section with radio buttons for 'View Order Statistics', 'View Registered Accounts' (selected), 'Inventory Details', 'Modify Product Catalogue', 'Update Warehouse details', and 'Custom Query'. The main area is titled 'View Registered Accounts' and contains a table with 10 rows of customer data. The table has columns for an index, 'Customer_ID', 'First_Name', and 'Last_Name'. A 'Deploy' button is visible in the top right corner.

	Customer_ID	First_Name	Last_Name
0	00001	Rahul Jadeja	Sharma
1	00002	Priya	Patel
2	00003	Amit	Verma
3	00004	Sneha	Gupta
4	00005	Neha	Jha
5	00006	Vikas	Yadav
6	00007	Shreya	Sharma
7	00008	Rohit	Gupta
8	00009	Pooja	Mishra
9	00010	Anuj	Verma

View Registered Accounts functionality accesses the database to fetch and exhibit essential details of registered customer accounts, comprising Customer ID, First Name, and Last Name, facilitating effective management and analysis.

iii) Inventory Details:

The inventory Details feature offers comprehensive insights into inventory management. It furnishes crucial details such as Product ID, Warehouse ID, Quantity, and Supplier ID, alongside comprehensive data on purchase orders and shipment details for enhanced operational oversight.

iv) Modify Product Catalogue:

Modify Product Catalogue

Add product

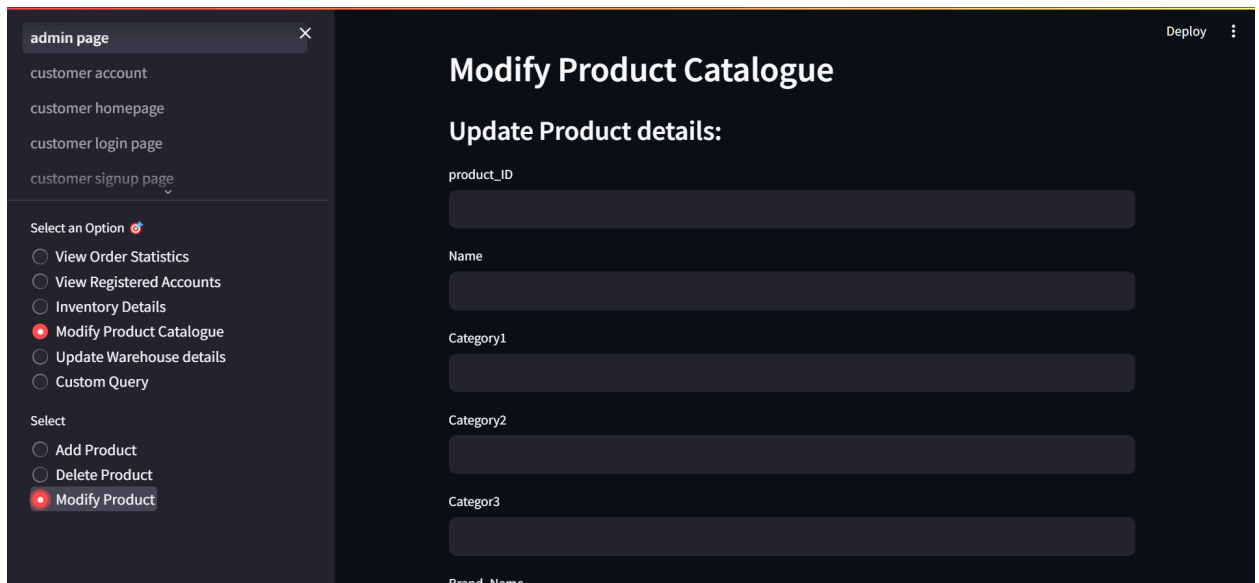

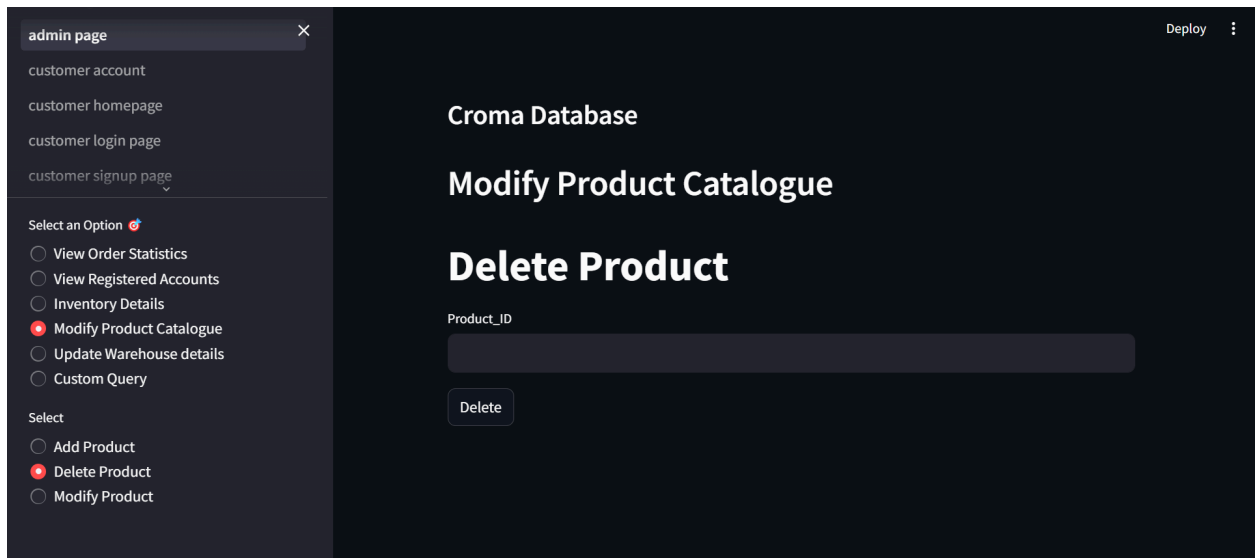

Name

Category1

Category2

Category3

Brand_Name

This feature allows administrators to add, delete, or update product details in the product catalogue. It includes options to add a new product, delete an existing product, or modify the details of an existing product.

v) Update Warehouse Details:

The screenshot shows a web application interface with a dark theme. On the left is a sidebar menu with a close button (X) at the top. The menu items are: 'admin page' (highlighted), 'customer account', 'customer homepage', 'customer login page', 'customer signup page', 'Select an Option' (with a red dot icon), 'View Order Statistics', 'View Registered Accounts', 'Inventory Details', 'Modify Product Catalogue', 'Update Warehouse details' (selected with a red dot), and 'Custom Query'. The main content area is titled 'Update Warehouse details' and has a 'Deploy' button with a three-dot menu icon in the top right. The form contains several input fields: 'warehouse_ID', 'Name', 'Contact_No', 'Area', 'City', and 'Country'. Each field has a corresponding label and a text input box.

Update Warehouse Details empowers administrators to maintain warehouse records efficiently. It facilitates the modification of key information like Name, Contact Number, Area, City, State, Country, and Pincode, ensuring accurate and up-to-date warehouse management.

vi) Submit Custom Query:

This section allows the admin to write a custom query to query the database in a specific way to retrieve specialised information.

The screenshot shows a web application interface with a dark theme. On the left is a sidebar menu with a close button (X) at the top. The menu items are: 'Logout' (with a house icon), 'Manage Database' (highlighted with a wrench icon), 'Select an Option:', 'View Order Statistics', 'View Registered Accounts', 'Inventory Details', 'Modify Product Catalogue', 'Update Warehouse details', 'Submit Custom Query' (selected with a red dot), and 'Place Shipment Order'. The main content area is titled 'Manage Croma Database' and has a 'Deploy' button with a three-dot menu icon in the top right. Below the title, it says 'You are currently logged with the role of Admin.' The section is titled 'Custom Query' and contains a text input field labeled 'Enter your custom query:' and a 'Run Query' button.

vii) Place Shipment Order:

In this section, the admin can place shipment orders to restock the inventory in various warehouses by ordering particular products from particular suppliers. The admin can choose the “Warehouse”, “Supplier” and “Product” for the shipment order by using the options displayed in the drop-down menus. The admin also needs to enter the quantity of the products to be shipped.

The screenshot shows a web application interface for placing shipment orders. On the left is a dark sidebar with a 'Logout' button at the top, followed by a 'Manage Database' button with a database icon. Below these is a section titled 'Select an Option:' with a list of radio buttons: 'View Order Statistics', 'View Registered Accounts', 'Inventory Details', 'Modify Product Catalogue', 'Update Warehouse details', 'Submit Custom Query', and 'Place Shipment Order' (which is selected and highlighted with a red dot). The main content area has a dark background and is titled 'Place Shipment Orders'. It contains four form fields: 'Select Warehouse to Restock:' with a dropdown menu showing 'A'; 'Select Supplier:' with a dropdown menu showing 'ABC Supplies'; 'Select Product to be Ordered:' with a dropdown menu showing 'iPhone 14'; and 'Quantity of Product to be ordered:' with a text input field. A 'Place Order' button is located at the bottom of the form. In the top right corner of the main area, there is a 'Deploy' button and a menu icon.

Instructions to Run:

Run “Streamlit run Home.py” on the terminal
